RE: Green River Valley Water District  
Case No. 2009-00162

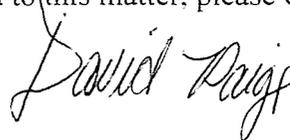

Dear Derouen:

Under the subject case, an Order issued on August 26, 2009 granted a Certificate of Public Convenience and Necessary to Green River Valley Water District to construct a 1,000,000-gallon ground level storage reservoir and approximately 75,640 feet of 16-inch, 1,650 feet of 12-inch, and 800 feet of 8-inch water main.

In compliance with that Order, the purpose of this letter is to abide by the requirements of paragraph 7 of that Order, wherein the Commission requires notification one week prior to the start of construction. Accordingly, actual construction on these water facilities will begin about September 15, 2009.

Should you require additional information with regard to this matter, please contact us.

Sincerely,

Mr. David Paige, Manager  
Green River Valley Water District
